

Radio Frequency Welding Experts

The world class RF-welding supplier

Forsstrom High Frequency AB has a wide range of radio frequency welding machines - each developed to suit different types of manufacturing. Our machines are available in stationary, traveling or with automation. We are constantly developing new machine models, accessories and solutions suited for your production needs.

At this year's **IFAI Virtual Expo**, we are excited to meet you in **Premier Hall 1**.

We are also hosting live machine demos November 2-12 directly from our demo hall in Sweden. Find out more and book your live demo at www.forsstrom.com
